AGX LSP-600 Forensic Printer

ADAPTIVE MANAGEMENT ENGINE

With an optimised thermal head, the AGX LSP3-600 printer ensures high definition photos and the finest detail in image reproduction.

HIGH-CAPACITY CONSUMABLES: REDUCED COSTS

The LSP3-600 uses a roll-fed paper and ink media. With 600 prints per media set on the 4"x6" size, it requires little time to be spent changing consumables and provides cost effective prints.

LONG-LIFE HEAD: GUARANTEED QUALITY

With a new protective covering on the thermal head increases the life of the head considerably.

Configuration			
Printing method			Thermal sublimation
Resolution	High resolution mode		600 DPI
	Normal mode		300 DPI
Levels			256 colour levels
Printing time	High resolution mode	4x6" (10x15cm)	57 sec.
		5x7" (13x18cm)	100 sec.
		6x9" (15x23cm)	105 sec.
	Normal mode	4x6" (10x15cm)	24 sec.
		5x7" (13x18cm)	39 sec.
		6x9" (15x23cm)	42 sec.
Buffer memory			32 Mb
Interface			USB 2.0
Dimensions (width x height x depth)			300 x 325 x 365 mm
Weight			17Kg
Power supply			AC 220-240V 50-60Hz
Consumption		Printing	1.6A
		Not printing	0.3A
