AGX Holdings Ltd.

AGX Holdings Ltd was formed in 1999 from two well established and respected, specialist IT supply and support companies.

Our aim is to deliver specialist IT solutions tailored to individual needs and requirements. Within our area of expertise, imaging and video manipulation and encompassing scanning, printing and bespoke systems we create efficient and cost-effective solutions to meet or exceed the customers' specifications.

AGX are agents for a wide range of equipment and software manufacturers, some of who are listed below:

ADOBE, AVISION, CITIZEN, EVERSPRY, GARNER, GBLABS, GRAPHICSTATION, KINESENSE, LIFT-SP,
MEDIAFILER, MICROTEK, MITSUBISHI, PERRENITY, PLUSTEK, RIMAGE, SONY, VIPRINET

Using these international partnerships, we create solutions to meet our customers' requirements and provide cost effective results. We optimise hardware for specific purposes and have delivered tangible results, delivering genuine efficiencies for customers around the world. Our ongoing commitment in providing the latest equipment and developments, promises to deliver new innovations for use in our various markets.

With a firm customer base in both the government and commercial sectors, AGX aims to directly support everything we sell, giving our customers and the end users a single point of contact and complete peace of mind.

We currently supply over 90% of UK Police forces with specialist IT products and services, mainly involving departments such as TSU, Identification, Imaging and Forensics. By the integration of specific hardware and software, AGX have provided many police forces with systems tailored to the very specific requirements of the crime scene and forensic environments.

Within the Government sector, we also supply product and services to many MOD establishments within the Army, RAF and Navy, as well as to HMRC and others. This usually involves equipment for designers, video production and publishing departments but also includes other areas. We supply high end, fast NAS storage specifically for video use, specialist optical storage units for archive or "write once" ability and even online training capabilities, all through our varied partners.

With support running through the core of AGX - whenever items are sold, we strive to exceed customer expectations and deliver unrivalled service levels. We supply a variety of support options, ranging from manufacturer approved warranties to fully customised AGX support agreements to suit the customer's needs.

These include: Warranty, Out of Warranty, Return to Base, Exchange and On-Site support.

If you would like further information, please do not hesitate to us.
